WHOLE COMMAND WIPED OUT

REPORTS FROM CARRIZAL MAKE IT WORSE THAN EVER

FIFTY PER CENT OF TROOP KNOWN TO BE KILLED AND IT IS FEARED REMAINDER MET SAME FATE

Preliminary Reports From Pershing Explain the Possibility That Not One Man of Capt. Boyd's Troop Survived or Escaped to Tell All the Facts of the Massacre.

(By Associated Press.)
WASHINGTON, June 23.—Secretary of War Baker published today a report from General Pershing of the fight at Carrizal, based on personal questioning of the men of two troops of the Tenth Cavalry. The answers indicated that the attack upon the soldiers was not provoked, but gave no estimate of the casualties on either side. Pershing had no opportunity to confer with any officer of the two troops, so Secretary Baker said definite conclusion of where the blame rested could not be formed.

(By Associated Press.)
SAN ANTONIO, June 23.—According to General Pershing's preliminary report to General Funston, virtually one troop under command of Captain Boyd was wiped out when almost surrounded

by Mexicans in the fight at Carrizal. It would seem that men assigned to holding the horses straggled into camp after having left during the fighting. Their story indicates that, with seventeen prisoners in Chihuahua, fifty per cent of the command was wiped out. With the information available it is by no means certain that the command was not virtually annihilated.

(By Associated Press.)
WASHINGTON, June 23.—Eliseo Arredondo, Mexican ambassador, personally informed the South and Central American diplomatic representatives that the Carranza troops in Chihuahua were under orders not to attack American troops unless they assumed an aggressive stand. He said he acted on the instructions of his foreign office.

Attack On Annapolis Crew At Mazatlan Unprovoked

(By Associated Press.)
WASHINGTON, June 23.—The outlook for peace between the United States and Mexico is conceded in official circles to be far from bright. The tension was not lessened by the official report of the Secretary of the Navy that there was no provocation by the Americans for an attack on the Annapolis boat's crew at Mazatlan. So unfavorable was the outlook regarded that Secretary Baker issued orders for the immediate entrenchment of 10,000 guardsmen in the central and western states.

Dispatches from Mexico City indicate the leaders of the Carranza government may show an attitude favorable to peace and try to avert a break, but no hope is expressed here.

Interest was expressed in the report that Villa is at Escalon negotiating for amnesty and a commission in the Mexican army.

Trevino Places the Blame On Insolence of Americans

(By Associated Press.)
CHIHUAHUA CITY, June 23.—Criticism of American military men who are said to have caused the trouble between Mexico and the United States was made by General Jacinto Trevino, military commander of the northeastern army in Mexico, in an interview with the Associated Press. He said: "The American military disobeyed orders of their own chiefs and never respected the feelings of Mexican citizens and contemptuously ignored the disposition of troops made by the Mexican government." He said he did not want war and is doing his best to control the situation.

(By Associated Press.)
DOUGLAS, Ariz., June 23.—Preparations for all developments are being completed by the United States military authorities. It is learned that efforts will be made to lease buildings to store supplies. Railroads are forbidden to send cars to Mexico.

EXTRA FOUR O'CLOCK THIRSTING FOR BLOOD

(By Associated Press.)
SAN ANTONIO, 4:00 p. m.—Fear that the casualties suffered by Boyd's command were very heavy is expressed by officers. It is pointed out that if twelve were killed as reported from Mexican sources it would mean forty wounded, according to the usual proportion. Much anxiety is expressed over the fate of the remainder of the command, which retreated.

(By Associated Press.)
COLUMBUS, June 23.—Making no secret of their intention of returning to "Clean up the gringos," Mexican customs officials at the "border gate," three miles south, packed up their possessions on burros and disappeared in the direction of Juarez. American scouting patrols reported to headquarters a small detail of Carranzistas encamped twenty miles south of Columbus. It was impossible to determine whether it was an outpost or some troops that evacuated Juarez yesterday. Extra sentries were thrown out as a precaution.

(By Associated Press.)
GALVESTON, June 23.—All oil camps of the Tuxpan region have been abandoned, according to refugees arriving. Thirty were in one party. They were warned by the American consular agent to leave the country, but declined when they

(Continued on Page Four.)

GUARDS ORDERED TO ACT WITHOUT DELAY

No Time For Mobilization or Recruiting to Fill Vacancies, But Wanted at Once

(By Associated Press.)
WASHINGTON, June 23.—Secretary Baker issued orders today to departmental commanders to send to the border all militia available immediately for the completion of organization without awaiting for completion of the mobilization in their separate states. General Funston will indicate where he wishes the force sent. Each departmental commander will arrange transportation.

(By Associated Press.)
WASHINGTON, June 23.—Secretary Baker called at the White House today for a conference with Wilson. He had no official report direct from Pershing regarding the Carrizal fighting and said there was no change in the policy. Pershing's formal report is still awaited. No further orders were issued to the regulars or militia.

Baker took the preliminary Pershing report to the President, which is based on the statements of stragglers. No attempt was made to decide the course of the United States until an official report is received.

(By Associated Press.)
WASHINGTON, June 23.—Immediate action on the resolution authorizing the President to draft into the federal service national guardsmen was asked by Congressman Hay, who incorporated an amendment declaring that an emergency is existing for a draft, which the House unanimously adopted.

ARRANGEMENTS OF FLOATS FOR AN ARTISTIC CELEBRATION

The following floats are being prepared for the big parade, which takes place at 10 o'clock the morning of the Fourth: No. 1. Betsy Ross, showing the making of the great American flag. No. 2. The Union of the North and South. No. 3. Lewis and Clark Expedition, blazing the way to the great northwest. No. 4. The Panama Canal. This float will be perhaps the most intricate and expensive ever attempted in a celebration of the kind Tonopah is giving this year.

Miss Dumont, in charge of the float for the Goddess of Liberty and her court of honor, has designed one of the most elaborate and descriptive designs, representing a beautiful garden scene with canary birds singing in the trees, beautiful palms and ferns waving in the wind, the whole brought to a climax with the Goddess on her throne surrounded by her maids.

Mrs. Lenore Sollerder Hanby, in charge of the exercises to be given immediately after the parade from the reviewing stand on Main street, is arranging a splendid program, consisting of the crowning of the Goddess, a short address, several vocal solos accompanied by the entire Tonopah Military band. This feature should indeed be impressive and lend much to the pleasure of the day.

The big advance sale of seats for the boxing carnival to be held the night of the 3rd at the Aldrome opened at the Cobweb, Bank Saloon, Tonopah Club, Tonopah Liquor Co. and the Northern last night and already a number of ringside reservations have been made. The program is unusually large and offers many attractive features to the lovers of the wrestling and boxing game. The show will start promptly at 9 p. m. with a grand wrestling match between Paddy Cannon of Goldfield and Tony Baragage of Tonopah, catch-as-catch-can style, for a purse of \$250 and an additional side bet of \$250, best two out of three falls, winner take all. This event will be followed by a hot six-round go between Johnny Morrison of Goldfield and Kid Bromee of San Francisco for a purse of \$350. Both of these clever boxers

CULMINATION OF A SWEET ROMANCE

DEGAN-GUILFOYLE NUPTIALS
CELEBRATED BY OLD PASTOR
OF BRIDE IN CALIFORNIA

A sweet little romance of considerable duration culminated yesterday afternoon in a quiet wedding in the land of sunshine and flowers. Miss Anita M. Degan and J. M. Guilfoyle were married at Turlock, near Modesto, California, by Father Heslin, an old-time friend of the Degan family. The bride was a graduate of a San Francisco high school and when she was a little girl Father Heslin, who was rector of St. Vincent de Paul, San Francisco, used to tell her that when she was going to get married he would travel to the end of the world to perform the ceremony. So, instead of having him come to her, the would-be wedded ones went to him. Mr. Guilfoyle is a native of Boston and for many years was manager of the Palace Hardware Co. in Goldfield, coming to Tonopah later as manager of the Lathrop Davis Co., and is one of Tonopah's most leading citizens.

Miss Degan has been popular in the young social circle. She is accomplished in music, possessing a rich contralto voice, and her winning personality has won her hosts of friends. For a number of years she has been bookkeeper at the Lathrop Davis Co.

Mr. and Mrs. Guilfoyle will tour through the Yosemite and will be at home in Tonopah the latter part of the month. When Miss Degan went out a few weeks ago it was understood she would take an extended vacation in and around Seattle. Mr. Guilfoyle left here a few

Japan is Friendly To United States

(By Associated Press.)
TOKIO, June 23.—"Of course any claim that the Japanese government will assist Mexico with munitions is out of the question and absurd," said Baron Ishi, foreign minister, to the Associated Press.

The interview was sought on account of declarations attributed to Mexicans that assurances had been received from Japan that munitions and other assistance would be given Mexico in the event of war with the United States.

"As for private Japanese companies selling arms to Mexicans I consider it extremely improbable," the baron added. "All available munitions will be furnished to Japan's allies in the European conflict."

Ishi said he never heard of General Ramon Iturbide, who was said to have gone to Japan on a secret mission.

PEACE MOVEMENT BEGINS ON BORDER

(By Associated Press.)
NEW YORK, June 23.—A movement to call a conference of American and Mexican citizens at El Paso in an effort to avert war is announced by the American union opposed to militarism. Bryan, Jordan, and Frank P. Walsh of Kansas City are being urged to proceed to El Paso immediately.

days ago, quite ill, and his quick restoration to health on the coast came as grateful news to numerous friends and acquaintances, who wish the young couple a wedded life replete with health, wealth and prosperity.

VERDUN FIGHTING GOES BRAVELY ON

THREE FRESH AND FURIOUS
ASSAULTS BY TEUTONS ON
FRENCH FIRST LINE

(By Associated Press.)
PARIS, June 23.—The Germans have launched a heavy attack in the Champagne district. Three violent assaults in the region of the Mont Tens French trenches were repulsed after severe fighting with grenades and bayonets. West of the Meuse on the Verdun sector the Germans attacked hill No. 304 and there was lively infantry fighting on Dead Man's hill. There was an artillery exchange particularly east of the Meuse, on the Vaux front.

"BORAX" SMITH, MULTI-MILLIONAIRE, REVISITS SCENES OF HIS BOYHOOD

Frank M. Smith, better known by the pseudonym of "Borax," the father of the industry that brought Death Valley out of chaos and produced millions for the men with courage and nerve to venture on the unthreaded paths of enterprise, was a visitor to Tonopah yesterday. He came in from Fish Lake valley, where he was visiting his ranch in that beautiful stretch of country and then continued on to Tonopah to spend the evening. He took in the Halifax and West End mines, of which he is the largest stockholder, and expressed himself delighted with the general appearance of prosperity in the camp. This morning Mr. Smith took the train for the coast.

The name of Smith is so closely interwoven with the development of the southern country that it is a household word, but in the present generation there are few who realize that the man who gave Oakland its splendid system of terminals and network of trolley lines got his start within a few miles of Tonopah. It was recalled by Mr. Smith this morning in conversation with the editor of the Bonanza, to whom he confided that he never knew what a restful atmosphere was on the desert until long years after he had moved to the outer world and began to feel the cares and responsibilities thrust upon him.

"There is nothing like it," he exclaimed this morning as he stood on the depot platform filling his lungs with the bracing breeze blowing right off the desert. "The more I travel the more my thoughts turn to the old days of Columbus, when that town was one of the growing centers

of old Esmeralda county. I got off the train the other day at Coaldale and my first thought was of the old camp where I saw so many happy and hard-working days. There it was off on the horizon, seen as clearly and distinctly in the mirage as though it existed in all the importance of its early youth. Of course, I knew the mirage covered a multitude of sins and glorified the ruins, for there is little there now but the crumbling adobe. In spite of this fact the town of Columbus will always have a tender spot in my heart, for it was the place where I got my start and the town that gave me more real pleasure than any that I have experienced since. It was only thirteen miles away, but I was in a hurry and could not stop to revisit the old scenes which recalled vividly the days when myself and associates located Columbus Marsh and Teel's Marsh. With the revival in silver I would not be surprised to see Columbus come back, but it will never have the same picturesque surroundings it had when I packed wood on burros in 1871 to the mills that kept pounding away day and night on the ores of Candelaria, which we thought would never be exhausted. Ah, then were the days," concluded the man who adopted the twenty-mule team trademark and let the world know that the deserts of Nevada were richer in their minerals than other countries were in agriculture.

Reference to the physical condition of the Halifax and West End mines brought out a statement that words could not describe the resources of those properties, but that time would tell.
